### FLY-IN SAFARI WITH BEST LODGE OPTIONS

When you think of going on safari in Africa, one of the first things that comes to mind is the Great Migration. Words just don't do justice to the migration, but also to the abundant game you can see all year round. We invite our guests to enjoy your Serengeti adventure in authentic African style and hospitality with us...

The Serengeti ecosystem is a geographical region in Africa. It is located in northern Tanzania. It spans approximately 30,000 km<sup>2</sup> (12,000 sq.ml).

The Serengeti hosts the second largest terrestrial mammal migration in the world, which helps secure it as one of the Seven Natural Wonders of Africa, and as one of the ten natural travel wonders of the world. The Serengeti is also renowned for its large lion population and is one of the best places to observe prides in their natural environment. The region

contains the Serengeti National Park in Tanzania and several game reserves.

Approximately 70 large mammal and 500 bird species are found there. This high diversity is a function of diverse habitats, including riverine forests, swamps, kopjes, grasslands, and woodlands. Blue wildebeests, gazelles, zebras, and buffalos are some of the commonly found large mammals in the region.

### SERENGETI SIMBA LODGE

Serengeti Simba Lodge, named after the lion (*Simba* in Swahili)—king of the jungle, a symbol of strength, pride and royalty—sits high on a hill with endless vistas of the great Serengeti plains. We welcome you to explore, experience and enjoy the African wilderness and the amazing Serengeti as our guest at Serengeti Simba Lodge.

The 'Serengeti Migration' passes the lodge twice a year, around June-July and again in October when millions of ungulates make their annual trek through the Serengeti eco-system. With awe-

inspiring panoramic views of the vast savannah, Serengeti Simba Lodge is home to prolific birdlife and a stunning array of large game including: lion, buffalo, cheetah, leopard, giraffe, elephant, bush buck, zebra, gazelle and hartebeest.

Night game drives and performances by the Simba Dance Troupe will add to the experience of spectacular sunrise and sunset. At night listen to the trumpeting of elephant, the laughing hyenas and the roars of our namesake.

The common area of the lodge (reception, bar and dining) is built around a 'kopje' or rocky outcropping, providing an unusual and natural background for your enjoyment. But the one thing everyone comments on is the amazing views of the Serengeti to be seen from every vantage point on Serengeti Simba Lodge's grounds.

Children over age six are most welcome at the lodge and must be under parent's supervision at all time. Children under the age of thirteen must share a room with an adult (17 or older). There are two large family rooms in our Stone House.
