8. Crescent Island Walking Safari with guide
9. Masai Mara Park/Conservancy Fees
10. F&B Hamper once in Nairobi
11. SIM card per adult preloaded with voice & data

SIGHT SEEING

Nairobi is Kenya's capital city. In addition to its urban core, the city has Nairobi National Park, a large game reserve known for breeding endangered black rhinos and home to giraffes, zebras and lions. Next to it is a well-regarded elephant orphanage operated by the David Sheldrick Wildlife Trust. The Giraffe Centre and The Masai Markets are also popular tourist attractions. Nairobi is also often used as a jumping-off point for safari trips elsewhere in Kenya.

Lake Naivasha

resting at an elevation of 1890 meters is the serene freshwater, a superb oasis to include in your Kenya itinerary. Just beyond its shores are papyrus swamps, acacia woodlands, forests and unique geologic features that are remnants of the area's volcanic past. The nutrient-rich soil is fertilized by an abundance of water, including the Gilgil and Malewa Rivers, to create an ecosystem that is known around the world for a diverse avian presence, as well as terrestrial game animals. More than 450 distinct birdlife

species have been identified, and the resident avi-fauna are joined by migratory species from October to March. The lake, high cliffs and forests are home to spectacled weavers, red-billed firefinches, grey-backed fiscals, grey-capped warbler and many other interesting and colorful aerial creatures. The most prominent, though, are the cormorants and pelicans while the African fish eagles are the most majestic of the raptors. You may sight hawks, cuckoos, woodpeckers, shrikes and other birds, and a solo giraffe may peer through the thorn-leaves branches out of curiosity. The papyrus swamps are where you find jacanas, herons and kingfishers.

Aberdare National Park

picturesque, steep forested ravines and open moorland characterise the park. It provides a habitat for elephants, black rhinos, leopards, spotted hyenas, olive baboons, black and white colobus monkeys, buffalos, warthogs and bushbucks among others. Rare sightings include those of the Giant Forest hog, bongo, golden cat, serval cat, African wild cat, African civet cat and the blue duiker. Visitors can indulge in picnics, trout fishing in the rivers and camping in the moorlands. Bird viewing is rewarding, with over 250 species of birds in the park, including the Jackson's Francolin, Sparrow hawks, goshawks, eagles, sunbirds and plovers.

OI Pejeta

is the largest black rhino sanctuary in east Africa, and home to two of the world's last remaining northern white rhino. It is the only place in Kenya to see chimpanzees, in a Sanctuary established to rehabilitate animals rescued from the black market. It has some of the highest predator densities in Kenya, and still manages a very successful livestock programme. OI Pejeta also seeks to support the people living around its borders, to ensure wildlife conservation translates to better education, healthcare and infrastructure for the next generation of wildlife guardians.

Apart from the rhino and chimpanzees one gets to view other animals and the highlight being the night safari.

Maasai Mara National Reserve

is an area of preserved savannah wilderness in southwestern Kenya, along the Tanzanian border. Its animals include lions, cheetahs, elephants, zebras and hippos. Wildebeest traverse its plains during their annual migration. The landscape has grassy plains and rolling hills, and is crossed by the Mara and Talek rivers. The area nearby is dotted with Maasai villages.

It is world-renowned for its exceptional populations of lions, leopards, cheetahs and elephant, and the annual migration of wildebeest, zebra, Thomson's gazelle and other antelope, to and from the Serengeti every year known as the Great Migration.

The Greater Mara Ecosystem encompasses areas known as the Maasai Mara National Reserve, the Mara Triangle, and several Maasai Conservancies, including: Koiyaki, Lemek, Ol Chorro Oirowua, Olkinyei, Siana, Maji Moto, Naikara, Ol Derkesi, Kerinkani, Oloirien, and Kimintet.

Fly over Masai Mara!

The Masai Mara Kenya's most precious jewel and there is not a better way to enjoy the magic of the park than from the air!

Game drive
